an important resource for scholars of contemporary art and architecture this volume considers contemporary art that takes architecture as its subject concentrated on works made since 1990 contemporary art about architecture a strange utility is the first to take up this topic in a sustained and explicit manner and the first to advance the idea that contemporary art functions as a form of architectural history theory and analysis over the course of fourteen essays by both emerging and established scholars this volume examines a diverse group of artists in conjunction with the vernacular canonical and fantastical structures engaged by their work i manglano ovalle matthew barney monika sosnowska pipo nguyen duy and paul pfeiffer are among those considered as are the compelling questions of architecture s relationship to photography the evolving legacy of mies van der rohe the notion of an architectural unconscious and the provocative concepts of the unbuilt and the unbuildable through a rigorous investigation of these issues contemporary art about architecture calls attention to the fact that art is now a vital form of architectural discourse indeed this phenomenon is both pervasive and in its individual incarnations compelling a reason to think again about the entangled histories of architecture and art

introduction to unicist business architecture is a fundamental book for individuals who are responsible for designing modeling or organizing businesses it provides an introduction to a structural functionalist approach to architecture that allows managing the integration of the ontological structures of a business to deal with it as an adaptive system with the functional operational processes that makes a business happen it is part of the unicist architecture collection of peter belohlavek which synthesized the structural functionalist approach to business architecture it covers among other subjects analogy between functional architecture it architecture and business architecture unicist business architecture the unified field businesses managed as unified fields transforming unified fields into operational actions unicist ontology of the apprehension of a unified field in business the nature of adaptive systems for work taxonomy for the design of an adaptive system s work process unicist business process modeling unicist business objects design unicist back2back methodology unicist design taxonomy the unicist ontology of figurative communication at work hyperrealism in business business platforms an application of unicist business

architecture 5 click strategy an example of the use of a unified field in business

from the time of the foundation of its cathedral in 597 canterbury has been the epicentre of britain s ecclesiastical history and an exceptionally important centre for architectural and visual innovation focusing especially but not exclusively on christ church cathedral this legacy is explored in seventeen essays concerned with canterbury s art architecture and archaeology between the early anglo saxon period and the close of the middle ages papers consider the relationship between between architectural setting and liturgical practice and between stationary and movable fittings while fresh insights are offered into the aesthetic spiritual and pragmatic considerations that shaped the fabric of christ church and st augustine s abbey alongside critical reflections on canterbury s historiography and relationship to the wider world taken together these studies demonstrate the richness of the surviving material and its enduring ability to raise new questions

after he is involved in a prank that led to an elderly woman s injury twelve year old mitchell must make amends by participating in a police program in which he chats online with a nursing home resident
